

Hello! My name is Miles Barry. I'm an undergraduate student at UC Davis, majoring in [Applied Statistics](#) and [Science & Technology Studies](#) (STS). I'm currently abroad at [Fudan University](#) in Shanghai.

I'm working on [Cosine](#), a platform allowing people to discover, and trade on undiscovered musicians using a modified Parimutuel system.

I'm the associate director of ASUCD's [Innovation and Research Lab \(IRL\)](#), where I've led projects including the [2026 AI Usage Report](#) and the [2025 Undergraduate Basic Needs Report](#).

From June through September 2026, I interned at my hometown paper [The Point Reyes Light](#), covering rural West Marin. I wrote about the [harbor seal pupping season](#), fire blight, and tenancy-in-common agreements.

In the STS department, I'm a research assistant to [Dr. Jens Pohlmann](#). We were awarded a [2027 UC VOICE](#) grant to continue our work on campus & platform speech. [Dr. Finn Brunton](#) is supervising my forthcoming senior thesis on prediction markets.

I used to write opinion columns for [The California Aggie](#). My favorite pieces are about [prediction market regulation](#), [the gamification of U.S. military operations](#), [seed oils](#), and [t-shirts](#).

From Jan. 2024 to January 2026, I led video production at the [Student Startup Center](#). I directed and edited shorts about our programs, including [Startup School](#), [Build Black](#), and [Innovation for Impact](#).

During my gap year, I interned at [The Bronx Defenders](#).
